Mc-JetBox inkjet compact coder/marker

Packin

MOVIE

Mc-JetBox software included

Mc-JetBox made by Packin comes with a complete software for creating print labels.

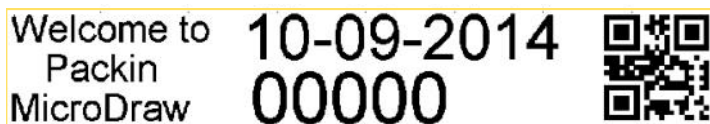

You can store the various file formats then use them when needed. All the parameters of the print position, ink type, print definition, printing area, etc. are automatically stored in the files.

Create labels with variable or static data containing: dates, timetables, batch numbers, progressive numbers, alphabetic characters with microcircuit

The screenshot shows the software interface with a label design in the center. The label text includes 'Welcome to Packin MicroDraw', the date '10-09-2014', and the number '00000'. A QR code is also present. On the left, a 'Cost' table is visible. A yellow box highlights the 'INK COSTS' section.

INK COSTS		
Shown the main software page for ink costs calculation.		
In the top left of the image are shown the ink parameters, referred to a 42 ml cartridge.		
• Cartridge cost	: 58.00	Euro
• Total label print	: 92.330	Euro
• 1000 printing label cost	: 0.63	Euro
• Label cost each	: 0.00063	Euro

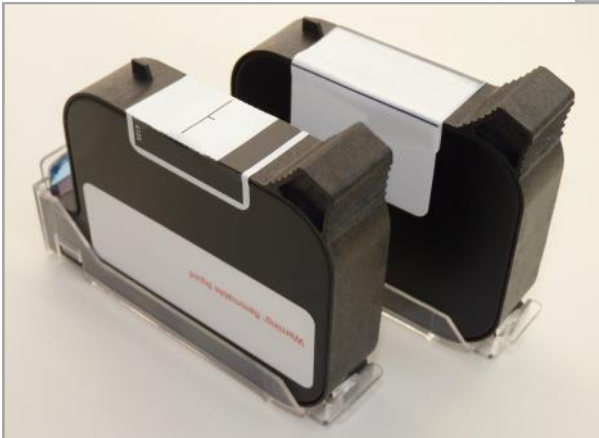

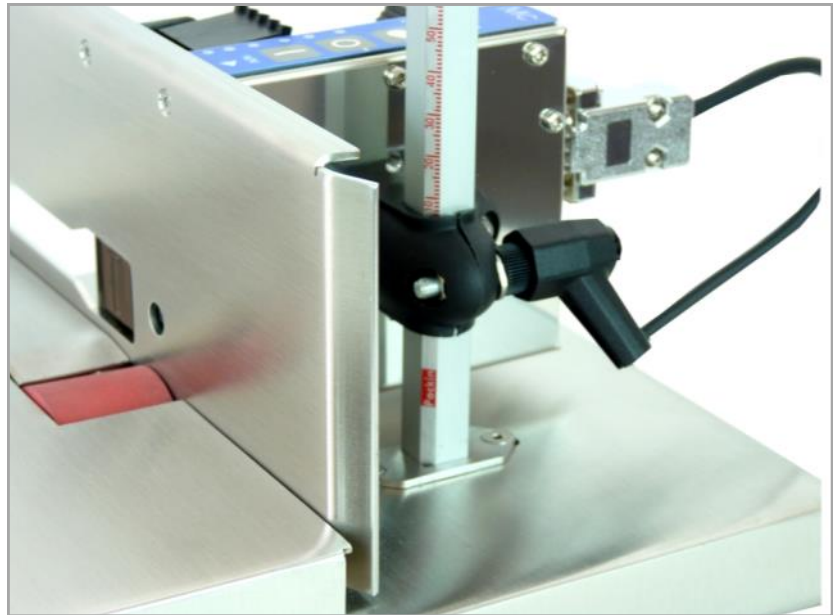

In this example the image has a 80x12.7mm dimensions. This label represents an high use of ink, the coverage is 22.97%. Usually a label with expire date and lot number by 10 arial use around 5% of ink.

Mc-JetBox

characters, all Windows fonts, bar-codes, two-dimensional barcodes, QRcode, logo is very simple.

Mc JetBox is an easy-to-use integrated printing / marking system that allows printing on many types of materials from paper to plastic, PET, PP, PT etc. You can print products with various shapes, round, oval, rectangular, square, and more.

The latest generation inks offer fixing stability marking the most varied products and materials, porous and

non-porous in different colours, solvent base, water base.

The technology used is the HP® Tj2.5 with a cartridge that integrates the print head, which means that each new cartridge change will have the new header, eliminating all parts of wear. The machine uses chip free cartridges.

Mc-JetBox compact coder/marker

TECHNICAL CHARACTERISTICS

PRINTING AREA HEIGHT	: 12.7 mm.
MAX PRESSURE LENGTH	: Depending on the d.p.i. Up to 400 mm.
PRINTING DEFINITION	: up to 600x300 d.p.i.
NUMBER OF PRINTS	: Without limitation
TYPES OF CHARACTERS	: All Windows fonts
ETK CREATING SOFTWARE	: Included for Windows XP, 2K, Wln7, Win8, Win10.
PRINTING SPEED	: Manually defined by the operator, up to 70 mt./min (1166 mm / sec) automatic adjustment.
HEIGHT POSITION PRINTING ON THE PRODUCT	: from 1 to 100 mm.
DIMENSIONS HxLxP	: 210x220x250 mm.
WEIGHT	: 8 Kgs
POWER	: 120/240Vac 50/60 Hz 40W
